

TRAFFIC CONTROL PRODUCTS FOR SAFER COMMUNITIES

Kinetic GPO

Who We Are

ATS Traffic has over 55 years of experience working with communities across Canada to create safer traffic conditions. We understand that every project needs to balance budgets with objectives, standards and safety, a constant challenge that ATS Traffic is eager to take on.

Solutions and Benefits

ATS Traffic's goal is to enhance traffic safety within your community. Safety concerns change based on population size, existing infrastructure and internal resources. The first part of our process is identifying your needs to create a set of clear goals.

We offer complete traffic control solutions, from our wide range of products to our professional support services. Through our partnership with **Kinetic GPO**, we can streamline your procurement process and you can focus on completing your project.
