PART 1 – INVITATION AND SUBMISSION INSTRUCTIONS

1.1 Invitation to Respondents

This non-binding Request for Standing Offers (“**RFSO**”) is an invitation by Kinetic GPO (“**Kinetic**”) to interested suppliers to qualify for the opportunity to sign a standing offer agreement for the supply of Traffic Control Products and Services to Kinetic Members (“**GPO Members**” or “**Members**”) as further described in Exhibit A (Statement of Work) to this RFSO.

The intent of this solicitation is to establish one or more contracts that include a comprehensive product offering with one or more suppliers that can accommodate a nationwide demand for supply of Traffic Control Products and Services and to fulfill obligations as suppliers to GPO Members as further specified herein.

The purpose of this RFP process is to:

- a. Obtain the highest quality goods and or services from a safe, efficient and reliable Supplier; at the best overall value
- b. Provide Customers accesses to a suite of goods and services
- c. Provide Customers professional and timely customer service and account management

Each contract shall be based on the Master Agreement, a draft of which is attached as Exhibit B, (“**Master Agreement**”) that includes the terms of the Standing Offer Agreement. It is Kinetics’ intention to contract with at least one supplier and, if deemed to be in the best interest of Kinetics’ Members, Kinetic may contract with more than one supplier. Each Master Agreement shall be for a term of three (3) years plus two (2) optional years.

Where Kinetic contracts with more than one supplier, Members will purchase from these contracts based upon an evaluation of which contract best meets that Member’s operational requirements. The evaluation may be a function of the breadth of service offerings in the contract, and other factors relevant in the contract to operational effectiveness and efficiency and competitiveness.

Suppliers’ pricing must remain fixed for the term of each Master Agreement unless otherwise specified in Exhibit E (Financial Proposal Requirements).

Respondents are encouraged to review Exhibit H, included with this RFSO, “Tips for Achieving Success in Responding to a Kinetic GPO RFSO”. This may also be found on the Kinetic website at <https://www.kineticgpo.ca/kinetic-gpo-public-sector-rfso-response-tips.html>

1.2 Background and RFSO Summary

Kinetic is a National GPO, with headquarters in Cambridge, Ontario and was established in 2016 to provide its private and public-sector Members with greater value for money in purchasing by (a) leveraging their collective purchasing power and offer a comprehensive choice of collaboratively sourced and competitively priced products and services through its Marketplace, the goal of which is to generate savings, choice and service for its Customers and (b) enhancing their operational efficiencies in purchasing and contract management by supporting customers’ access and use of Kinetic agreements through analysis, reporting and the development of tools, guides, and other materials.

Kinetic GPO effectively manages supplier contract performance while harnessing expertise and innovative ideas, to drive continuous improvements through a Supplier Relationship Management program.

Kinetic GPO now has Members across Canada. From modest beginnings, we have been able to increase our organic membership year over year an average of 49.5% from January 2019 to date. Kinetic GPO is specifically designed to provide value to the MASH and Broader Public Sector entities with eligible membership and trade complaint agreements covering a wide range of goods and services. Our Members include all Cities, Towns, Villages and Rural Municipalities, Municipal Organizations, Schools and School Boards, Universities and Colleges, Non-Profits, First Nations Communities, and Organizations, Hospitals and Health Authorities, Long Care Facilities, Airports, Local Authorities, Park Boards, Police and Fire Commissions, Religious Organizations and all publicly funded entities and governments. For more information on Kinetic GPO please visit www.kineticgpo.ca.

Each of our competitions, contracts and subsequent programs are drafted in Canada by Canadian procurement professionals who have a deep understanding of the various Trade Agreements which affect the Canadian public sector. The programs we create are solely for use in Canada. Kinetic GPO actively manages contracts throughout their term. We monitor key performance indicators, as well as provide ongoing education for suppliers to ensure they are operating in compliance with the terms and conditions of the contract. Contracts comply with Canadian trade agreements, the Canadian Free Trade Agreement (CFTA), as well as the Broader Public Sector (BPS) Procurement Directive and regional trade agreements.

Kinetic intends to execute a Master Agreement with the successful bidder(s) ("**Respondent(s)**"). Each Master Agreement will include the terms of the standing offer agreement ("**Standing Offer Agreement**") that serves as the basis for the purchase of products or services by GPO Members.

Only submissions ("Proposals") submitted by the Submission Deadline (set out below) will be evaluated. The evaluation of Proposals shall be done in accordance with the evaluation process as set out in Exhibit C.

Based on the evaluation of Proposals, the highest ranked Respondent(s) will be invited to enter into negotiations based on the negotiable terms of the Master Agreement which agreement will, when signed, govern the relationship between Kinetic and the Supplier(s) and establish the Standing Offer Agreement. For greater certainty, Kinetic will not entertain any changes to the non-negotiable terms of the Master Agreement after the Deadline for Questions unless an addendum has been issued in accordance with section 3.2.2 and prior to the Submission deadline.

Following the execution of the Master Agreement by Kinetic and the successful Respondent (s), (the "**Supplier**"), the Standing Offer Agreement will be made available to the GPO Members for Kinetic GPO Contracts Offers Competitive Advantages

1.3 Securing a contract with Kinetic GPO offers suppliers a significant competitive advantage in the Canadian market

Kinetic is constantly communicating with its Canadian Members to raise awareness of potential purchase opportunities available through Kinetics' competitively tendered contracts.

Contracted suppliers' profiles are raised with both existing and potential Members through Kinetics' participation in various conferences, through Kinetic marketing material and through mail and email

campaigns, webinars, onsite training sessions and learning workshops. Kinetic GPO annually attends on average 40 conferences, we hold kick off meetings for 15 new and renewed programs, as well as a dozen or more National Training / Webinar calls and connect events.

In addition to raising the profile of contracted suppliers among Kinetic Members and potential Members, Kinetic assists suppliers with navigating the world of group buying and to generate business opportunities within that world as follows:

- Upon contract execution, Kinetic will announce the award and purchase opportunities to its Members
- Kinetic will organize a kick-off meeting between Kinetic and the successful supplier to provide an orientation on how to leverage the opportunities afforded by having a contract with Kinetic
- During the term of the contract, Kinetic remains available to help educate supplier's sales force on the contract with a view to equipping the sales force with the tools needed to generate business opportunities within Kinetics Membership
- Kinetic also works with supplier's marketing team to develop joint marketing collateral that can be used to promote the contract to Members
- Kinetic helps facilitate introductions to Members who are interested in knowing more about supplier's goods and services and potentially purchasing the goods and services

All of these efforts offer successful suppliers a significant competitive advantage and unique opportunity to increase sales within the Canadian market.

PART 2 – EVALUATION AND SELECTION PROCESS

2.1 Stages of Evaluation

Kinetic will conduct the evaluation of Proposals submitted by the Submission Deadline in the following stages:

STAGE ONE

Mandatory Requirements

Will consist of a review to determine which Proposals comply with all of the mandatory submission requirements found in Form 1.

STAGE TWO

Rated Technical Evaluation

Technical Proposals will be evaluated based on the following criteria and weightings.

Step One: Kinetic GPO will evaluate each qualified Proposal on the basis of the rated criteria as set out in the Exhibit C (Evaluation Process) (the “**Rated Requirements**”). Minimum scoring of 70% will need to be obtained to move onto Step 2.

Step Two: Kinetic GPO will evaluate each qualified Proposal on the basis of acceptable References and Financials. To proceed to Stage 3 proponents must achieve a minimum score of 70% in each of the References and Financials submissions.

STAGE THREE

Pricing Evaluation: Proposals achieving a minimum of 70% score in both Step One and Step Two of Stage Two will be evaluated for pricing.

STAGE FOUR

Respondent(s) that achieve the highest score(s) (Technical + References + Financial + Pricing) as set out in Exhibit C (Evaluation Process) will be selected to enter into negotiations of a Master Agreement.

2.2 Stage One – Mandatory Submission Requirements

Kinetic will review the Proposals to determine whether the mandatory requirements set out in Exhibit C (Evaluation Process) to this RFSO have been met. Questions or queries on the part of Kinetic as to whether a Proposal has met the requirements will be subject to the verification and clarification process set out in this document.

Stage One will consist of a review to determine which Proposals comply with all of the mandatory submission requirements.

If a Proposal fails to satisfy all of the mandatory submission requirements, Kinetic will issue the Respondent a rectification notice identifying the deficiencies and providing the Respondent an opportunity to rectify the deficiencies.

If the Respondent fails to satisfy the mandatory submission requirements within the Rectification Period (as defined above in under the RFSO Timetable), its Proposal will be excluded from further consideration. The Rectification Period will begin on the date and time that Kinetic issues a rectification notice to the Respondent.

The mandatory submission requirements are set out in Exhibit C (Evaluation Process).

2.3 Stage Two Step One – Evaluation

Evaluation and scoring of each Proposal satisfying the mandatory requirements will be done on the basis of Rated Requirements set out in Exhibit C (Evaluation Process).

Each Proposal will be awarded points based on the information responding to the Rated Requirements.

Where contradictory information or information that contains conditional statements is provided with respect to a requirement, Kinetic will, in its sole and absolute discretion, determine whether the Proposal complies with the requirements, and may seek clarification from the Respondent. Contradictory or missing information may result in the Proposal receiving a low score for that particular Rated Requirement.

Proposals that do not respond to a particular Rated Requirement, are left blank or contain a Proposal that is not applicable will receive a zero (0) point score for that requirement. Where the evaluation team cannot reasonably find information responding to a Rated Requirement, a zero (0) point score will be assessed for that Rated Requirement.

Submissions that receive a minimum technical score of 70% will move on to **Stage Two Step Two** - a Financial and References Evaluation. The Proposal to each Rated Requirement should:

- Be complete (bullet point format is acceptable)
- Be concise and factual
- Demonstrate the Respondent's understanding of GPO Members' business needs by providing answers validating its capabilities

2.4 The Evaluation Team

An evaluation team comprised of representatives of Kinetic will evaluate the Proposals. Kinetic reserves the right to use the services of outside consultants and other resources, in the evaluation of the Proposals. Such consultants and resources will be required to hold Proposals in strict confidence.

2.5 Selection

Based on the evaluation of the Proposals as described in **Stages Two and Three - Evaluation** the Respondent(s) that achieve the highest score(s) (Technical + References + Financial + Pricing) as set out in Exhibit C (Evaluation Process) will be selected to enter into negotiations of a Master Agreement (**Stage Four**) for the establishment of a Standing Offer agreement which negotiation shall be based on the Respondent's responses to the negotiable provisions of the Master Agreement attached as Exhibit B. Respondent's responses to the negotiable provisions should be included as part of the Respondent's Proposal using the document provided as Exhibit B.

Kinetic reserves the right, in its sole discretion, to invite a second highest ranked Respondent to enter into negotiations of a Master Agreement where it is determined that having more than one supplier under contract is in Kinetics' Members' best interest. Reasons such a decision may be made include but are not limited to: (a) to expand the breadth of products available to Members; (b) expand the manufacturers whose products are made available, (c) expand the geographic area coverage.

2.6 Notification

The successful Respondent(s) will be notified by Kinetic in writing.

2.7 Negotiation of Master Agreement

The successful Respondent(s) will be invited to negotiate the negotiable terms of the Master Agreement and if agreement can be reached on the terms, the parties shall execute a Master Agreement. Respondents are advised that Kinetic has limited flexibility to negotiate the terms of the Master Agreement based on the provisions of the applicable trade agreements and Kinetics' Negotiation Protocol which is available at kineticgpo.ca

Kinetic intends to complete negotiations within forty-five (45) calendar days after notification. If, for any reason, Kinetic and a Preferred Proponent fail to reach an agreement within the aforementioned timeframe, Kinetic may at its sole and absolute discretion:

(a) request the Preferred Proponent to submit its Best and Final Offer; (b) terminate negotiations with that particular Preferred Proponent; (c) extend the negotiation timeline; or (d) publish one (1) or some of the Suppliers, who have executed Master Agreements, within our promotional marketing launch. Other Master Agreements, if successfully negotiated with other Preferred Proponents would be added to Kinetics' website at a later date.

The Preferred Proponent will be given five (5) Business Days to execute the Master Agreement (electronic signatures accepted), unless otherwise specified by Kinetic. Once the Master Agreement has been executed, Kinetic will commence our onboarding sessions.

2.8 Unsuccessful Negotiation

If for any reason Kinetic determines that it is unlikely to reach complete agreement with the successful Respondent(s), Kinetic may discontinue the discussions with the successful Respondent(s) and proceed in any manner that Kinetic may decide, in consideration of its and its Members' best interests including without limitation inviting one of the other Respondents to enter into discussions to conclude a Master Agreement, commencing with the Respondent having the second highest combined score and so forth.

The naming of specifications is intended to provide the Respondent with information as to the general style, type and kind of product requested. This RFSO may be amended only by way of an addendum communicated in accordance with this section. If Kinetic, for any reason, determines that it is necessary to provide additional information relating to this RFSO, such information will be communicated to all Respondents by addendum. Each addendum forms an integral part of this RFSO and may contain important information, including significant changes to this RFSO. Respondents are responsible for obtaining all addenda issued by Kinetic. Addenda when

issued will be posted on the same electronic systems used for posting the RFSO. It is the responsibility of the Respondent to ensure it takes the appropriate steps to receive all addenda.

3.2.3 Post-Deadline Addenda and Extension of Submission Deadline

3.2.4 Verify, Clarify and Supplement

When evaluating Proposals, Kinetic may, but shall have no obligation to, request further information from the Respondent or third parties in order to verify, clarify or supplement the information provided in the Respondent's Proposal including but not limited to clarification with respect to whether a Proposal meets the requirements set out in Exhibit C (Evaluation Process). Kinetic may revisit and re-evaluate the Respondent's Proposal or ranking on the basis of any such information.

3.3 Notification and Debriefing

3.3.1 Notification to Other Respondents

Once the selected Respondent(s) has executed a Standing Offer Agreement, the other Respondents will be notified of the outcome of the RFSO process.

3.3.2 Debriefing

Respondents may request a debriefing after receipt of a notification of the outcome of the RFSO process. All requests must be in writing to the RFSO Contact and must be made within sixty (60) days of such notification. The intent of the debriefing information session is to aid the Respondent in presenting a better Proposal in subsequent procurement opportunities. Any debriefing provided is not for the purpose of providing an opportunity to challenge the RFSO process or its outcome.

3.3.3 Procurement Dispute Protest

1. A supplier that wishes to make a formal complaint about a procurement process must submit a request for review in writing within sixty (60) days from notification of the outcome of the procurement process. Requests for review will not be addressed under this protocol until after Kinetic has publicly posted or otherwise provided formal notification of the outcome of the procurement process. The supplier's request for review will not result in the rescission of an awarded contract or delay the progress of any project, unless recommended by the Procurement Review Committee (PRC).

2. A request for review of a procurement process must be directed to a representative appointed by Kinetic and must contain the following:

- A clear statement as to which procurement the supplier wishes to have reviewed
- A clear and detailed explanation of the supplier's concerns with the procurement, including specifics as to why it disagrees with the procurement process or its outcome
- Any accompanying documentation relevant to the supplier's concerns
- The supplier's contact details, including name, telephone number, and email address

3. Within five (5) business days from receiving the supplier's request for review, Kinetic will send an initial response to acknowledge receipt and indicate the date by which it will provide the supplier with a formal response. In general, Kinetic will endeavor to make a determination and provide a formal response within twenty (20) business days from receipt of the supplier's request for review.

4. Kinetic staff involved in the procurement process will conduct an initial review of the supplier's request for review in order to compile any background information and documentation relevant to the procurement process and the supplier's concerns. The supplier's request for review and the compiled background information and documents will then be submitted to the PRC.

5. The PRC will convene a meeting to review and consider the supplier's request for review and all internally compiled background information and documents. The PRC may seek any additional information it requires and may consult with other Kinetic officers or representatives, Legal Counsel or other advisors, as necessary.

6. Upon completion of its review, the PRC will make a determination and issue a response to the supplier as follows:

- a. If the PRC finds that the supplier's rationale for requesting a review of the procurement process does not have merit, then it will issue a response to the supplier indicating that the PRC has reviewed its concerns and providing reasons for its determination; or
- b. If the PRC finds that the supplier's concerns in respect of the procurement process have merit, then it will further determine the appropriate resolution to the matter. In making its determination, the PRC may consider any factors it considers relevant, including:
 - i. whether the complainant participated in the procurement process or was prevented from doing so
 - ii. the seriousness of any deficiency found in the procurement process
 - iii. the degree to which the complainant was prejudiced by any deficiency in the procurement process
 - iv. whether the parties acted in good faith

7. Upon making its determination, the PRC will issue a response to the supplier indicating its proposed resolution to the matter, if any, and indicating any changes that will be made to Kinetics' policies and practices to help prevent similar issues arising in future procurement processes. Any such response will be provided to the supplier on a "without prejudice" basis.

8. The determination of the PRC is the final determination under the procurement protest process. If the supplier is not satisfied with the response of the PRC, the supplier may consider its other options, including challenges under governing laws.

Additional Pricing Terms

2. Electronic Catalog and/or price lists must accompany the proposal. Include an electronic copy of the catalog in Excel format from which discount, or fixed price, is calculated. Multiple percentage discount structure is also acceptable. Please specify where different percentage discounts apply. If Respondent has existing GPO contracts in place, Respondent is requested to submit pricing equal to or better than those in place.

Pricing Validation and Increases

- All pricing submitted shall be "ceiling" or "not-to-exceed" pricing, subject to the price adjustment provisions below
- The Supplier may adjust submitted pricing lower if needed but, cannot exceed the pricing submitted in its Proposal.

- Please note that Kinetic does not publicly post Suggested Retail Price (MSRP) lists. Our suppliers are responsible for providing quotes to our Members based on the contracted items based on the RFSO quoted pricing and the agreed upon discounts. If a Member needs to validate pricing, they can reach out to the Supplier directly or to Kinetic to receive a copy of the current MSRP. Depending on the request, Kinetic and/or the supplier will either confirm the pricing, send a copy of just the quoted items, or provide the entire Master Price List.
- Pricing for **Kinetic customers** is as follows; The pricing model is the MSRP multiplied by the exchange rate at the time of order (exchange rate based on the monthly average published rate at that time according to the Bank of Canada – Monthly Exchange Rate). This creates a new MSRP for Canada and then the discount off that price is applied.
- For example:

US MFSR	Current Monthly Fx Rate	CAN MSRP	Kinetic Discount (Based on 20% off CAN MSRP)
\$5000	1.2932	\$6,466	\$5,172.80

- Bank of Canada – Monthly Exchange Rate
<https://www.bankofcanada.ca/rates/exchange/monthly-exchange-rates/>
- Suppliers will be responsible for fluctuations in currency exchange; therefore, we suggest appropriate expiry dates for all quotes

Increases during first 12 months of Master Agreement (Exceptions to situations like COVID-19)

- Prices must not increase in the first twelve months of the Master Agreement, subject to a time-limited exception to account for supply chain disruptions such as the one experienced worldwide as a result of the COVID 19 pandemic or potential tariffs. Suppliers wishing to increase their pricing in the first year must provide evidence reasonably satisfactory to Kinetic that the price increases: (a) are caused by the global supply chain disruptions or unforeseen tariff price increases; (b) could not reasonably have been foreseen at the time of Proposal submission and (c) represents the direct incremental cost to Supplier, net of Supplier profit and overhead.
- **OPTION 1 – Allowable Price Adjustments – Services**
Except as set out above, prices quoted in Respondents’ Financial Proposal shall be fixed for the first twelve months of the Master Agreement (the “**Contract Year**”). Thereafter, prices may be increased once every Contract Year (including renewal years) by up to the Canadian Consumer Price Index Yearly Inflation Rate as reported in the last month of the previous Contract Year.
- **OPTION 2 – Allowable Price Adjustments – Commodity**
Except as set out above, prices quoted in Respondents’ Financial Proposal shall be fixed for the first twelve months of the Master Agreement (the “**Contract Year**”). Thereafter, prices may be adjusted once every Contract Year with supporting justification for the price increase, which may include evidence that original manufacturer’s prices have been increased.
- The Respondent is deemed to confirm that it has prepared its Proposal with reference to all of the provisions of the RFSO, that it has factored all of the provisions of the Agreement, if any, into its pricing assumptions, calculations and into its proposed prices.

Respondents should set out the information that is listed in the order in which it will be evaluated as set out below. Respondents are encouraged to provide as much detail as possible to maximize points and allow Kinetic GPO to evaluate their Proposals.

Financial Evaluation – Pricing 110 points (90 points Market Basket + 20 points Additional Charges)

Rated Requirements Components		Points Breakdown	% Of total
Pricing			
Market basket – see item III above for breakdown			86%
		90	
Additional credit card fees administrative fees, minimum orders		20	14%
Total Points for Rated Requirements		110	100.0%

Each Market Basket Item will be evaluated and scored using a relative formula (i.e., by dividing that supplier's total price for the category into the lowest price bid for the category) and multiplying by the total points for that category. This will be done for each category 1-9.

The resulting financial evaluation scores for all Market Basket items and Additional Charges will be totalled for each Respondent and added to the total technical score to determine a total overall score.

EXHIBIT D – REFERENCE FORM

Each Respondent is required to provide three (3) references from Public Sector/Government (Government Purchasing Organization (GPO), Shared Services Group or Government Cooperative Purchasing Group) for which the Respondent has provided the same or similar Deliverables within the past five (5) years.

Kinetic GPO, in its sole discretion, may confirm the Respondent's experience and or ability to provide the Deliverables required and described in its Proposal by checking the Respondent's references, and the provision of the references by the Respondent is deemed to be consent to such confirmation/contact with the references.

Kinetic GPO reserves the right to revisit the Respondent's scores in the rated requirements based on information learned during reference checks, should they reveal that there is inconsistency between the Respondent's answers to the rated requirements and the results of the reference check.

Kinetic GPO may check references other than those provided by the Respondent.
