Get full visibility over your rented and owned fleet

FLEET FOR EVERY NEED

We know climate emergencies come in all shapes and sizes. That’s why we carry a full line of portable AC equipment from 1 to 12 tons, heaters, evaporative coolers, dehumidifiers and air scrubbers. Our fleet is designed for rapid deployment and maintained for peak dependability. From spot coolers to large mobile ACs with heat, we’ll deliver sensible, efficient climate solutions to meet your exact need.

PARTS & ACCESSORIES

United Rentals offers a full complement of accessories to ensure the installation and operation of your rental equipment is quick and complete. Examples include:

- Flexible duct
- Ceiling tile kits
- Condenser plenum kits
- Condensate pumps and tubing
- Extension cords and cable
- Extra filters, flanges and nozzles

DELIVERY & INSTALLATION SERVICES

It’s not enough just to have first-rate equipment, superb delivery and installation. Cooling Systems services are required to exceed customer expectations. United Rentals leverages our nationwide network of Climate Solutions branches, an inventory optimized for seasonal peaks, and local service experts to quickly deliver and expertly install your climate solution.

CLIMATE SOLUTION SPECIALISTS

Available 24 x 7, our experienced specialists can design the perfect climate solution for your most complex climate challenge. Our experts consider every facet of the project to create a tailored submittal that leaves nothing to chance. When the need for expertly maintained, top-quality equipment is urgent, our experts will expedite your order to meet the delivery and installation timelines.

AIR-COOLED PORTABLE AIR CONDITIONERS 1 TON TO 5 TON

United Rentals Climate Solutions offers a complete line of 1- to 5-ton portable air conditioners. These temporary cooling units are ideal for server/equipment rooms, office spaces, healthcare facilities, retail businesses, schools, events and other commercial or industrial applications. Air-cooled portable air conditioners are most often the system of choice for end-users and industry professionals. The fact that they can be installed almost anywhere—usually in minutes—explains their popularity.

WATER-COOLED PORTABLE AIR CONDITIONERS 1.5 TON TO 5 TON

United Rentals Climate Solutions offers a complete line of 1.5- to 5-ton portable water-cooled air conditioners. These temporary cooling units are ideal for server/equipment rooms, office spaces, healthcare facilities, retail businesses, schools, events and other commercial or industrial applications where venting hot air is not possible. A water faucet with drain or condenser/chilled water loop is required for operation. These systems need no exhaust ducts.

HEAT PUMPS 1 TON TO 5 TON

United Rentals Climate Solutions offers a complete line of 1- to 5-ton portable heat pumps. These temporary heating/cooling units are ideal for office spaces, healthcare facilities, retail businesses, schools, events, and other commercial or industrial applications. Heat pumps are air conditioning and heating systems in one. Perfect for year-round use. Safe and convenient to install, our air-cooled heat pumps supply mechanical heat. They are very popular in office settings and medical facilities.

CLIMATE SOLUTIONS 5 TON & 12 TON

United Rentals Climate Solutions offers 5- and 12-ton Mobile HVAC units. Cool and heat large areas with our mobile air conditioning systems. These temporary indoor/outdoor cooling and heating units are ideal for server/equipment rooms, construction jobsites, warehouses, events and tent temperature control, and other commercial or industrial applications. Their high static output enables efficient airflow for lengthy supply and return duct setups. They're not just central cooling systems with wheels added, they're designed and built to withstand the rigorous demands of rental use. Mobile air conditioners can be positioned outside your building with flexible air ducts or craned to the roof and connected to existing ductwork. They can fit through a standard doorway, enabling indoor use if needed.

EVAPORATIVE COOLERS 7000 CFM TO 14000 CFM

United Rentals Climate Solutions offers 7000 to 14000 CFM Evaporative Coolers. Evaporative coolers are ideal for manufacturing and other large warehouse cooling applications, outdoor festivals, tent cooling, sporting events and amusement parks, plus construction jobsite cooling and dust mitigation. All that’s needed is water to provide the source of cooling. Evaporative coolers offer a low-cost alternative to air conditioning. Easy to set up, they simply use an internal or external water source to provide cooling.

LGR DEHUMIDIFIER 130 TO 235 PINTS PER DAY

United Rentals Climate Solutions offers LGR Dehumidifiers for areas with temperatures as low as 33 degrees F. These rugged models remove up to 235 pints of moisture per day. LGR dehumidifiers reduce humidity fast after leaks, spills and floods, or when humidity levels are too high for comfort, production, or safety. This professional-grade LGR dehumidifier continues to dry after humidity levels have dropped, which helps prevent mold and mildew.

ADDITIONAL PRODUCTS

Products to complete your climate solutions.

PORTABLE GENERATORS

When your climate job requires temporary power, United Rentals offers industrial-utility grade diesel generators ranging from 25kW to 2000kW.

INDUSTRIAL AIR CONDITIONERS

United Rentals offers Industrial Air Conditioners ranging from 5 to 80 tons. Units come trailer- or skid-mounted with forklift pockets and lift eyes. Electric powered with quiet operation, these units deliver a high static air supply while utilizing a compact footprint.

DESICCANT DEHUMIDIFIERS

When deciding on which dehumidifier to use, consideration must be given to the ambient temperature of the area to be dried. Desiccant dehumidifiers will remove water vapor even at sub-freezing temperatures. They provide maximum drying performance.

MOBILE CHILLERS AND AIR HANDLERS

United Rentals offers Air Cooled Chillers ranging from 20 to 500 tons. Units come trailer- and skid-mounted with forklift pockets and lifting eyes for easy on-site positioning. Our Air Handlers have variable speed frequency drive which controls temperature through adjustment of blower speed.

COMMITTED TO SAFETY

Your safety is important, so you need a partner that takes it just as seriously as you do. Our team makes safety the No. 1 priority in every aspect of our job. United Rentals has an industry-leading safety record that will help power productivity on your jobsite.

Working safely is part of who we are at our core. We track our safety statistics closely and proudly share reports with our customers. From the processes and procedures to onsite requirements, our team is up to speed and compliant to ensure efficient and safe interactions at every site.

Safety is at the forefront at every branch, worksite and situation. Always.
