ONE STOP FOR ALL YOUR POWER AND HVAC NEEDS

United Rentals is the world's largest and most versatile equipment rental company, offering rentals, expertise and digital solutions to be your one-stop partner. Our power and climate control solutions help jobsites, businesses and municipalities plan for outages with a range of power and heating/cooling needs. Let us help you meet the demands of any and every job — 24/7.

Emergency Response & Support

Turn to our dedicated Power & HVAC help line, regional Command Centers, and 24/7 customer care for rapid response and ongoing support.

Workspace Climate Control

From a single-room warehouse stocked with perishables to an entire medical center, we have the equipment to maintain or restore power and air flow.

Extended Power Loss

Our experts can prepare customized power and HVAC solutions, no matter the size of your project or facility, and whether the need is planned or unplanned.

Auxiliary Cooling Systems

Our temporary chilled-water cooling systems can mitigate failures that may impact every aspect of a building or operation.

Temporary Project Power

Support your most challenging industrial and commercial events with expertly maintained top-quality equipment.

POWER & HVAC PRODUCTS

TEMPORARY POWER

From scheduled shutdowns to system failures, United Rentals offers you unmatched solutions and reliable performance. With over 900 MW of power in North America and 24/7 real-time response, we've got you covered.

> Mobile Industrial Generators

- 20 to 500 kW
- Towable setup
- GPS telematics
- 24-hour onboard fuel
- Full containment
- Universal connections

> Containerized Industrial Power Modules

- Utility parallel grade
- Highway legal trailers
- Extended fuel tanks
- 500 to 2000 kW
- Onboard fuel tanks

> Power Distribution

- I-Line panels
- Distribution panels
- Edison outlet power panels
- Mill panels
- Breaker boxes

> Load Banks

- A wide range of load bank equipment to meet your project needs
- Expertly maintained, dependable equipment
- Application reviews that help define safe and successful test scopes
- Anxiety-reducing logistical planning
- Load banks available in resistive, reactive and capacitive

> Transformers

- Dry type (PCB free) transformers
- High voltage substations
- NEMA 3 weather enclosures
- Forklift pockets and lifting eyes
- Fused circuit breaker protection
- Quick connect setup

TEMPERATURE CONTROL

Whether you need equipment for planned maintenance, new construction or an emergency situation, you'll receive quick and reliable service. From providing a variety of cooling systems to pairing you with our expert technicians, we're here to help.

> Mobile Chillers

- Air-cooled 20 to 500 tons
- Trailer and skid mounted
- Easy electrical connection
- Redundant circulation pumps Forklift pockets and lifting eyes
- Victaulic and flange connections

> Spot Cooling

- 1 to 5 ton units
- Digital temperature controls
- Rugged design for harsh conditions
- Customized spot cooling options
- Air or water cooled models available

> Cooling Towers

- 500 to 3000 tons
- Mobile design
- Auxiliary pumps
- High efficiency PVC fill
- Completely self-enclosed
- NEMA 4X-Class I, Div. II panels

> Air Handlers

- 60, 100, 120 tons
- Variable speed frequency drive
- Vertical and horizontal units
- High static pressure
- Maximum output 30,000 CFM
- Victaulic water supply and return
- Forklift pockets
- Onboard condensate pumps

> Industrial Air Conditioners

- 5 to 80 tons cooling
- 10 to 150 kW heat options
- Ducting options available
- Compact footprint
- Trailer and skid mounted
- Forklift pockets and lifting eyes
- Fast electrical connections

DEHUMIDIFIERS & AIR FILTRATION

Fungus, mold and particles that can contaminate the air don't belong on jobsites. Keep your site dry and your air clean with United Rentals' extensive line of dehumidifiers and air filtration equipment.

> Desiccant Dehumidifiers

- 500 to 15,000 CFM sizes available
- Electric, natural gas or propane reactivation systems
- Full protective enclosure
- Forklift pockets and lifting eyes
- Microprocessor control
- Circuit breaker protection
- ETL listed and approved

> Remediation Equipment

- Portable dehumidifiers
- Electric heaters
- Power distribution
- Ductable air movers
- Carpet dryers
- Submersible pumps

> Industrial Dehumidification Services

- North America's largest fleet of drying and climate control equipment
- Technical engineering backed by 20 years of experience
- Energy-efficient equipment reduces equipment operating cost by up to 40%

> Construction Drying Services

- Keep construction projects on schedule
- Building flush-outs 100% outside air
- Protect new HVAC systems from dust contamination
- Protect building materials from moisture damage
- Speed construction drying

EVENTS AND ENTERTAINMENT

When it's a live event, it has to be right the first time. We have the technical experience to design and build out a successful production. For everything from identifying and managing resources to providing onsite support, you can count on us.

> Total Event Resources

- "Movie quiet" generators
- Specialty event power distribution
- Mobile air conditioning
- Portable heat
- Boom lifts
- Light towers
- Ground support vehicles
- Lifting and transport equipment

> Sporting Events

- Vertical and ductable HVAC systems
- Onsite support from start to finish
- Parallel able power systems
- 20A, 30A, 50A low voltage distribution systems
- Onsite refueling services
- Luxury mobile restroom solutions
- Engineered project design
- Experienced project managers, logistics and technical staff

> Festivals and Concerts

- 2 to 2000 kW modules
- Parallel able power systems
- Transformers, disconnects, I-Lines that are plug and play
- Double wall fuel tanks that are environmentally friendly
- "Movie quiet" silent designed Crawford generators
- Gators, forklifts, man lifts

> Film Production Support

- Low temperature stage cooling
- Talent cooling/heating
- Location sets
- Cover sets
- Warehouse cooling/heating
- Dedicated technical staff
- 24-hour onsite service
