

CDW + KINETIC GPO + APPLE EDUCATION

IT Solutions & Services: All Your IT Needs
in One Agreement RFSO #21-12

AGREEMENT DETAILS

CDW is pleased to be an Authorized Apple Education Reseller and offer Apple solutions through our awarded Kinetic GPO contract for IT solutions and services. CDW is your one-stop shop for Apple products and services as well as other OEM solutions that compliment the entire Apple ecosystem. Whether you need to deploy devices with charging carts, ruggedized cases and other accessories, manage through MDM, secure and support through AppleCare+ for schools, refresh your Apple fleet, configuration services and more, CDW is here to help. Utilizing this agreement simplifies the procurement process, ensures compliance and puts technology solutions into action when you need them. The Kinetic GPO contract includes CDW's full catalogue offering from 1000+ OEM partners now including Apple Education.

RFSO #21-12 TERM: October 2022 - October 2025 with an option of an additional period of up to two years.

BENEFITS OF KINETIC GPO CONTRACT:

- National contract available to all broader public sector and MASH entities across Canada
- Kinetic GPO conducts procurement in a fair, open, transparent and competitive manner, compliant with all trade agreements and regional procurement directives
- This contract is 100% voluntary, no volume or spend commitments or membership fees

CDW SUPPORT SERVICES

- Full API integration with Apple School Manager
- Extensive third-party hardware and software licensing options
- Mobile device management solutions and Jamf School professional services
- Buy-back programs and asset disposition
- White glove services with local service integrators
- Offering a range of professional and managed services for managing Apple devices using Microsoft Intune
- A comprehensive approach to Apple device management, integrating Intune with other management tools like VMware Workspace ONE and Jamf Pro

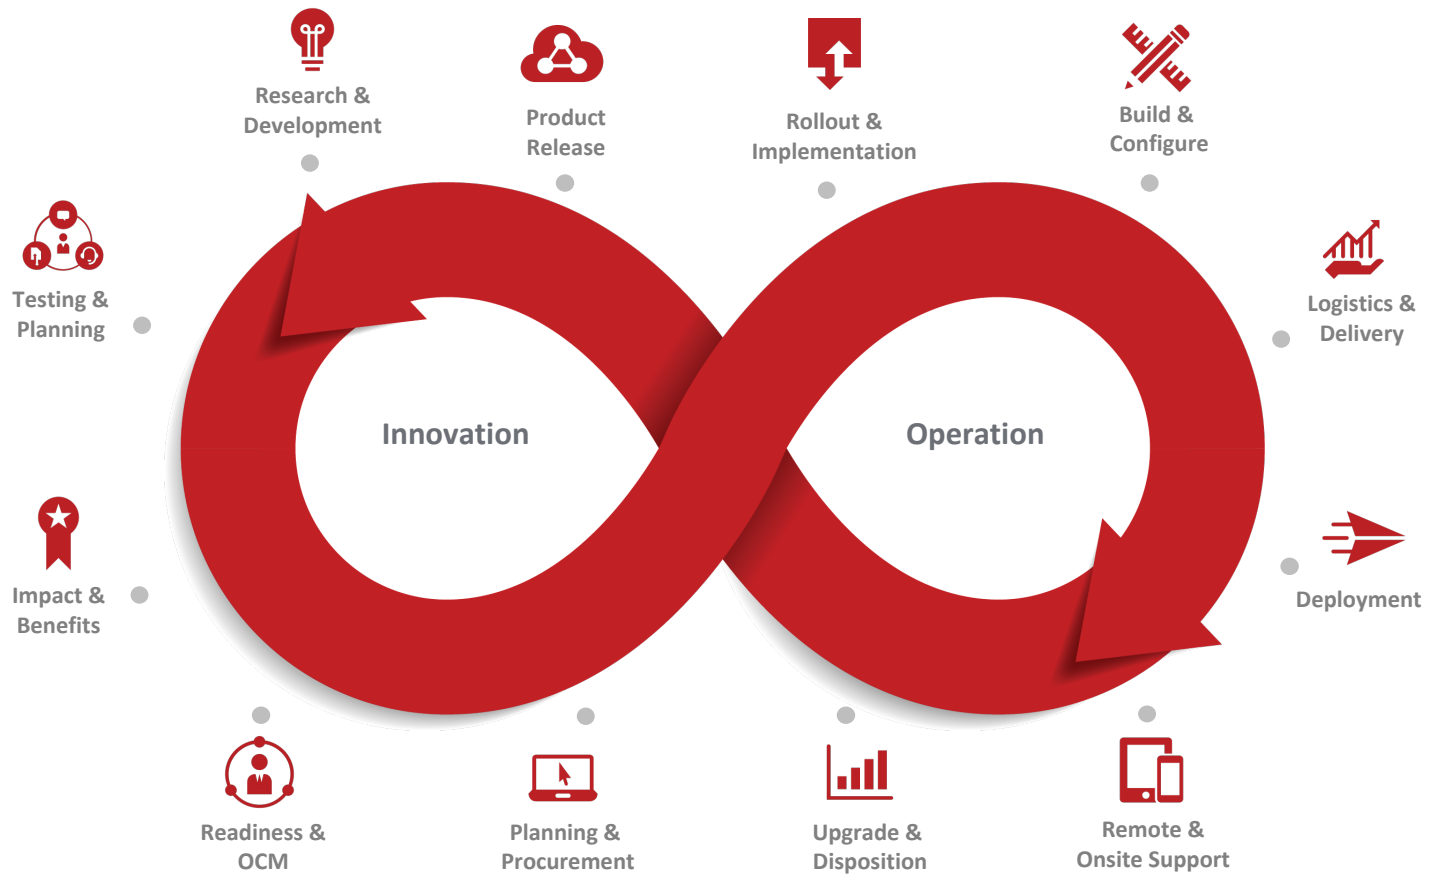

CONFIGURATION SERVICES

With more than 20 years of experience serving as a trusted IT partner, CDW Canada has knowledgeable experts ready to help you capitalize on your IT investment. Our configuration teams have developed and executed innovative projects and helped our customers overcome incredible logistical challenges.

- Asset tagging: We can apply your asset tags, our standard tags or customized tags and perform data capture services
- Burn-in and diagnostic: We run your devices for 12 to 48 hours to ensure all components are working properly
- Custom packaging: This includes kitting, palletization, inserts, welcome letters and box labeling
- Warehousing: We store your purchased equipment in our secure facilities, where we configure and ship it according to your logistical requirements

APPLE IN EDUCATION - THE COMPLETE LIFECYCLE
