

EDUCATIONAL FACILITY SAFETY & INSTALLATIONS

Kinetic GPO

PRODUCT OVERVIEWS

ATS Traffic has over 55 years of experience working with communities across Canada to create safer traffic conditions. We understand that educational spaces are vital to a healthy community and these properties deserve the highest quality products and service we can offer.

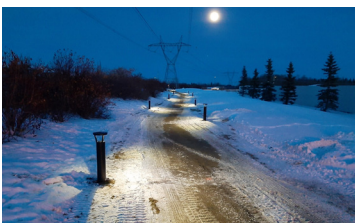

Pedestrian Safety

All road users deserve safety and consideration. ATS Traffic has multiple options to reinforce and promote pedestrian safety both at intersections and on trails and pathways. From speed monitors to solar powered crosswalks, ATS Traffic ensures that everyone gets home safely.

Wayfinding

As a certified 3M manufacturer, ATS Traffic creates custom, professional wayfinding signage that excels at guiding and managing traffic flow. Well-designed and placed wayfinding prevents confusion, increases efficiency and ensures direction and orientation is clear during emergencies

Solar Pathway Lighting

Solar and powered lighting offer multiple ways to enhance safety around high-risk areas with large amounts of foot traffic. ATS Traffic works to ensure this infrastructure can be planned and installed with minimal disruption and designed for future maintenance and expansion.

Impactable Posts & Bollards

ATS Traffic has a range of bollard posts from Impact Recovery Systems (IRS), designed for heavy use and to resist damage. These bollard posts are suited for wayfinding and directional signs and enhancing parking lots without worrying about constant repair and replacements.
