BACK TO THE OFFICE

Safety & Sanitization concerns – Minimize the foot traffic and number of touches on a common area shared device and move to multiple smaller devices for 'pods' of employees in order to keep number of encounters low, physical distancing and sanitization as a priority

Reduced capital expenditures – companies can immediately benefit from a Managed Print Agreement by lowering operating costs; average of 30% savings over transactional procurement process

Reduced print volumes moving forward – with companies printing less, there is an opportunity to rethink the size and specifications of the device you purchase when it's time to upgrade
